Whole-device response to terminal leads and copper joints
V3.4: combined lead approximation
V3.5: separate copper leads
V3.5: separate nickel-like leads
V3.5: high interstage contact R
218.833 K
218.900 K
218.915 K
212.624 K
Synthetic selected material/contact laws; not a measured prediction
